

Disclaimer:

We work to provide our customers with accurate guidelines on packaging recyclability, however, please ensure that your city or municipal program is consulted before recycling an item.

Before Recycling:

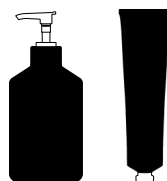

Empty the contents of the container. Remove cap, lid, dropper, pump, and other components and rinse the bottle/jar with water.

Packaging items with adhesive-based labels:

Contact your local recycling facility to ensure recyclability via curbside recycling program.

Otherwise, dispose via our in-store recycling program.

Serum/Oil, Shampoo, Conditioner, Shower Gel, Lotion, Hand Soap Bottles:

#1 PETE & #2 HDPE and glass bottles are recyclable through the majority of local curbside recycling programs.

5 PP bottles are usually recyclable through local curbside recycling programs. Please contact your local recycling facility to ensure recyclability.

Otherwise, dispose via our in-store recycling program.

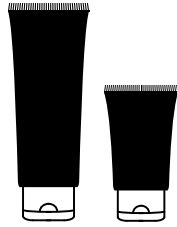

Aluminum Tubes:

Recyclable through the majority of local curbside recycling programs.

Deodorant Bottles:

Dispose of via our in-store recycling program.

Plastic Tubes:

Due to the complexity of tube recycling in different jurisdictions, we suggest they are disposed via our in-store recycling program.

All Pumps:

Dispose of via our in-store recycling program.

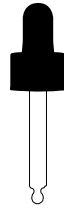

Jars:

#1 PETE, #2 HDPE and glass jars are recyclable through the majority of local curbside recycling programs.

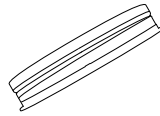

5 PP jars are usually recyclable through local curbside recycling programs. Contact your local recycling facility to ensure recyclability.

Otherwise, dispose via our in-store recycling program.

Dropper Lids:

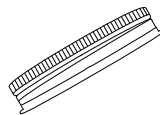

Dispose of via our in-store recycling program.

Plastic Flip Top Caps, Screw-on Caps & Disc Caps:

Sometimes recyclable through local curbside recycling programs. Contact your local recycling facility to ensure recyclability of smaller caps.

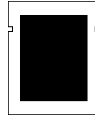

Otherwise, dispose via our in-store recycling program.

Aluminum Lids:

Recyclable through the majority of local curbside recycling programs. It's best practice to remove the PET liner on the inside prior to recycling.

Otherwise, dispose via our in-store recycling program.

Sachets:

Aluminum and paper sachets are usually recyclable through the majority of local curbside recycling programs.

Plastic sachets are sometimes recyclable through local curbside recycling programs. Contact your local recycling facility to ensure recyclability.

Otherwise, dispose via our in-store recycling program.

Sets:

Follow Individual Product Packaging Guidelines.
